

Developmental Milestones: Physical/Gross Motor

Child moves on "ride-on" toy without pedals

These observations involve the following developmental skills:

- Spatial awareness
- Body strength
- Coordination
- Gross motor movements
- Self-confidence
- Thinking, reasoning & problem-solving

Developmental Milestones: Physical/Gross Motor

Child walks on uneven surfaces

These observations involve the following developmental skills:

- Coordination
- Balance
- Body strength and control
- Self-confidence

Developmental Milestones: Physical/Gross Motor

Child climbs on stools and playground equipment

These observations involve the following developmental skills:

- Spatial awareness
- Body strength
- Coordination
- Gross motor control
- Self-confidence
- Thinking, reasoning & problem-solving

Developmental Milestones: Physical/Gross Motor

Child begins to crawl and/or walk upstairs with adult supervision

These observations involve the following developmental skills:

- Gross motor coordination
- Body strength
- Self-confidence
- Spatial awareness
- Thinking, reasoning, and problem-solving

Developmental Milestones: Physical/Gross Motor

Child begins to crawl and/or walk downstairs with adult supervision

These observations involve the following developmental skills:

- Gross motor coordination
- Body strength
- Self-confidence
- Spatial awareness
- Thinking, reasoning, and problem-solving

Developmental Milestones: Physical/Gross Motor

Child throws or rolls a large ball

These observations involve the following developmental skills:

- Spatial awareness
- Body strength and control
- Coordination
- Balance
- Self-confidence

Developmental Milestones: Physical/Gross Motor

Child is beginning to kick a large stationary ball

These observations involve the following developmental skills:

- Spatial awareness
- Body strength and control
- Hand-eye coordination
- Concentration
- Self-confidence
- Self-awareness
- Visual discrimination

Developmental Milestones: Physical/Gross Motor

Child experiments jumping with 2 feet

These observations involve the following developmental skills:

- Body strength and control
- Coordination
- Balance
- Self-confidence

Developmental Milestones: Physical/Gross Motor

Child walks easily or runs from place to place

These observations involve the following developmental skills:

- Coordination
- Balance
- Body strength
- Self-confidence
- Gross motor control
