

Developmental Milestones: Physical/Fine Motor

Child strings 10 or more $\frac{1}{4}$ inch beads

These observations involve the following developmental skills:

- Eye-hand coordination and control
- Spatial awareness
- Hand strength (fine motor development)
- Self-confidence
- Dexterity
- Concentration; attention span; focus

Developmental Milestones: Physical/Fine Motor

Child completes simple parquetry patterns

These observations involve the following developmental skills:

- Eye-hand coordination
- Spatial awareness
- Hand strength & dexterity
- Thinking, reasoning & problem-solving
- Self-confidence
- Understanding shapes & their attributes

Developmental Milestones: Physical/Fine Motor

Child uses scissors to cut shapes

These observations involve the following developmental skills:

- Self-help
- Eye-hand coordination
- Spatial awareness
- Hand strength & dexterity
- Thinking, reasoning & problem-solving
- Self-confidence

Developmental Milestones: Physical/Fine Motor

Child practices lacing, zipping, and buttoning

These observations involve the following developmental skills:

- Eye-hand coordination
- Spatial awareness
- Hand strength
- Problem-solving
- Self-confidence
- Self-help skills

Developmental Milestones: Physical/Fine Motor

Child attempts to complete jigsaw puzzles (24 to 48 pcs.)

These observations involve the following developmental skills:

- Eye-hand coordination
- Spatial awareness
- Hand strength & dexterity
- Thinking, reasoning & problem-solving
- Self-confidence
