

Developmental Milestones: Physical/Fine Motor

Child is able to make balls or snakes with clay and/or playdough

These observations involve the following developmental skills:

- Eye-hand coordination
- Hand strength and dexterity
- Creativity; imagination
- Self-confidence
- Concentration; Focus
- Thinking, reasoning, and problem-solving

Developmental Milestones: Physical/Fine Motor

Child pounds pegs with a mallet

These observations involve the following developmental skills:

- Eye-hand coordination
- Spatial awareness
- Hand strength and control
- Gross Motor- core strength

Developmental Milestones: Physical/Fine Motor

Child puts 8 to 10 piece wooden puzzle together

These observations involve the following developmental skills:

- Eye-hand coordination
- Spatial awareness
- Problem solving
- Self-confidence

Developmental Milestones: Physical/Fine Motor

Child is beginning to complete simple jigsaw puzzles

These observations involve the following developmental skills:

- Self-awareness
- Spatial perception
- Thinking, reasoning, and problem-solving
- Fine motor control
- Self-confidence
- Eye-hand coordination
- Hand strength & dexterity

Developmental Milestones: Physical/Fine Motor

Child strings at least 6 half-inch beads

These observations involve the following developmental skills:

- Eye-hand coordination
- Spatial awareness
- Hand strength (fine motor development)
- Self-confidence

Developmental Milestones: Physical/Fine Motor

Child begins to use scissors to snip; using beginning scissoring technique

These observations involve the following developmental skills:

- Eye-hand coordination
- Spatial awareness
- Hand strength
- Self-confidence

Developmental Milestones: Physical/Fine Motor

Child uses scissors to cut on or near a straight line

These observations involve the following developmental skills:

- Eye-hand coordination
- Spatial awareness
- Hand strength
- Self-confidence

Developmental Milestones: Physical/Fine Motor

Child attempts to follow holes when lacing

These observations involve the following developmental skills:

- Eye-hand coordination
- Spatial awareness
- Hand strength and dexterity
- Thinking, reasoning, and problem-solving
- Self-confidence
- Concentration; focus

Developmental Milestones: Physical/Fine Motor

Child practices zipping, snapping, fastening, and buttoning

These observations involve the following developmental skills:

- Eye-hand coordination
- Spatial awareness
- Hand strength
- Self-confidence

Developmental Milestones: Physical/Fine Motor

Child builds a tower using more than 5 blocks

These observations involve the following developmental skills:

- Eye-hand coordination
- Spatial awareness
- Hand strength
- Problem solving
- Self-confidence
