

Developmental Milestones: Cognitive/Information Recall

Child matches related objects

These observations involve the following developmental skills:

- Sorting & classifying
- Thinking, reasoning & problem-solving
- Language & communication
- Visual discrimination

Developmental Milestones: Cognitive/Information Recall

Child identifies what is missing from a picture

These observations involve the following developmental skills:

- Thinking, reasoning, and problem-solving
- Concentration; focus
- Visual discrimination
- Memory recall

Developmental Milestones: Cognitive/Information Recall

*Child recognizes what does not belong in a group of three items
(such as banana, chair, apple)*

These observations involve the following developmental skills:

- Thinking, reasoning, and problem-solving
- Focus/concentration
- Visual discrimination
- Memory recall
- Grouping; matching
- Building math foundations
- Self-confidence

Developmental Milestones: Cognitive/Information Recall

Child can identify the usage of objects shown in pictures

These observations involve the following developmental skills:

- Classifying
- Thinking, reasoning & problem-solving
- Language & communication
- Visual discrimination

Developmental Milestones: Cognitive/Information Recall

Child recalls steps from a familiar task in sequence

These observations involve the following developmental skills:

- Self-awareness
- Memory recall
- Attention span
- Thinking; reasoning
- Comprehension
- Self-confidence

Developmental Milestones: Cognitive/Information Recall

Child recalls three objects that are visually presented

These observations involve the following developmental skills:

- Self-confidence
- Visual memory
- Spatial awareness
- Counting
- Thinking, reasoning & problem-solving
