OTHERS _____

Developmental Milestones: Cognitive/Language & Communication

Child identifies common sounds (such as: doorbell, car, animals, etc.)

These observations involve the following developmental skills:

- Memory recall
- Auditory discrimination
- Recognition of sounds
- Connecting concept together
- Curiosity and wonder

Developmental Milestones: Cognitive/Language & Communication

Child understands opposites (up/down, open/closed, stop/go, etc.)

These observations involve the following developmental skills:

- Thinking, reasoning, and problem-solving
- Building math foundations (discriminating size, matching objects)
- Visual discrimination
- Sorting & classifying
- Memory recall

Developmental Milestones: Cognitive/Language & Communication

Child uses sentences to convey ideas, activities, and/or stories

These observations involve the following developmental skills:

- Auditory processing
- Memory recall
- Thinking, reasoning, and problem-solving
- Language & communication skills
- Self-confidence
- Verbal development
- Expanding vocabulary
- Expressive language
- Pre-reading skills

Developmental Milestones: Cognitive/Language & Communication

Child understands sentences and questions as indicated by a somewhat relevant response

These observations involve the following developmental skills:

- Auditory memory/recall
- Receptive and expressive language
- Thinking, reasoning, & problem solving
- Self-confidence

Developmental Milestones: Cognitive/Language & Communication

Child asks questions (such as: who?, what?, where?, and why?)

These observations involve the following developmental skills:

- Thinking, reasoning, and problem-solving
- Expressive language
- Interpersonal communication
- Curiosity and wonder
- Social and emotional responsiveness
- Self-confidence

Developmental Milestones: Cognitive/Language & Communication

Child uses the plural form of words (such as: toys, birds, etc.)

These observations involve the following developmental areas:

- Vocabulary development
- Language & communication skills
- Understanding difference between having one or more than one of something
- Spatial awareness
- Thinking, reasoning, and problem-solving
- Developing expressive language

Developmental Milestones: Cognitive/Language & Communication

Child is beginning to understand the "give & take" of conversation

These observations involve the following developmental skills:

- Self-awareness
- Collaborative interaction
- Self-confidence
- Thinking, reasoning, and problem-solving
- Beginning to understand verbal & non-verbal conversational rules
- Cooperation
- Patience
- Listening skills
- Social and emotional responsiveness

Developmental Milestones: Cognitive/Language & Communication

Child recites full name, gender, and age

These observations involve the following developmental skills:

- Self-awareness
- Emotional & social development
- Language & communication
- Self-confidence
- Pre-reading development
- Memorization
- Thinking and reasoning
