

Developmental Milestones: Cognitive/Language & Communication

Child understands and responds to simple verbal directions

These observations involve the following developmental skills:

- Self-awareness
- Language & communication
- Self-confidence
- Thinking, reasoning, & problem-solving
- Self-help skills

Developmental Milestones: Cognitive/Language & Communication

Child speaks clearly enough to be understood most of the time

These observations involve the following developmental skills:

- Auditory discrimination
- Articulation
- Communication
- Expressive language
- Self-awareness
- Self-confidence

Developmental Milestones: Cognitive/Language & Communication

Child begins to use different volumes when speaking

These observations involve the following developmental skills:

- Self-awareness
- Interactions with others
- Auditory discrimination
- Recognition of voices/sounds/tones

Developmental Milestones: Cognitive/Language & Communication

Child names basic colors

These observations involve the following developmental skills:

- Memorization
- Expanding vocabulary
- Visual discrimination
- Observation skills
- Thinking, reasoning & problem-solving

OTHERS _____

Developmental Milestones: Cognitive/Language & Communication

Child asks questions (who?, what?, where?, why?)

These observations involve the following developmental skills:

- Thinking, reasoning & problem-solving
- Expressive language
- Interpersonal communication
- Vocabulary building

Developmental Milestones: Cognitive/Language & Communication

Child knows own age when asked

These observations involve the following developmental skills:

- Self-awareness
- Emotional & social development
- Language & communication
- Self-confidence
- Memorization

Developmental Milestones: Cognitive/Language & Communication

Child gives first and last name when asked

These observations involve the following developmental skills:

- Self-awareness
- Emotional & social development
- Language & communication
- Self-confidence
- Pre-reading development
- Memorization

Developmental Milestones: Cognitive/Language & Communication

Child uses short sentences to convey simple ideas

These observations involve the following developmental skills:

- Auditory processing
- Memory
- Thinking, reasoning, and problem solving
- Communication skills
- Expressive language
- Self-confidence
- Verbal development
- Expanding vocabulary
- Pre-reading skills

Developmental Milestones: Cognitive/Language & Communication

Child answers simple questions

These observations involve the following developmental skills:

- Auditory discrimination/processing
- Receptive & expressive language
- Thinking, reasoning, & problem-solving
- Self-confidence
- Verbal understanding

Developmental Milestones: Cognitive/Language & Communication

Child begins to follow 2 step directions that are related

These observations involve the following developmental skills:

- Language & communication skills
- Self-confidence
- Thinking, reasoning & problem-solving
- Aware of classroom rules & routines
- Sequencing
- Self-awareness

Developmental Milestones: Cognitive/Language & Communication

Child begins to converse with others during play

These observations involve the following developmental skills:

- Receptive and expressive language
- Thinking & problem solving
- Self-confidence
- Socialization

Developmental Milestones: Cognitive/Language & Communication

Child recalls past experiences

These observations involve the following developmental skills:

- Self-awareness
- Memory
- Attention span
- Thinking; reasoning
- Comprehension
- Self-confidence

Developmental Milestones: Cognitive/Language & Communication

Child lets others know when they want a turn to talk

These observations involve the following developmental skills:

- Self-awareness
- Interpersonal communication
- Verbal communication
- Receptive and expressive language
- Self-confidence
- Thinking, reasoning, & problem-solving

Developmental Milestones: Cognitive/Language & Communication

Child uses approximately 400-1,000 words in home language

These observations involve the following developmental skills:

- Auditory processing
- Memory
- Language & communication skills
- Self-confidence
- Verbal/vocabulary development
- Thinking; reasoning

Developmental Milestones: Cognitive/Language & Communication

Child begins to experiment with words that sounds alike

These observations involve the following developmental skills:

- Self-awareness
- Self-confidence
- Recognition of sounds/tones
- Vocal development
- Auditory discrimination

Developmental Milestones: Cognitive/Language & Communication

Child recognizes and names familiar people and common objects

These observations involve the following developmental skills:

- Visual discrimination
- Auditory discrimination
- Memory; familiarity
- Thinking; reasoning
- Self-confidence
